# West Allis - West Milwaukee School District Comprehensive Student Services Program

A Comprehensive Student Services Program serves all students K-12. It helps all students gain an understanding for their learning. It encompasses a student's entire support network, including the school counselor, staff, administration, parents and community to be a part of developing the student into a successful, productive citizen. The organizational framework is summarized below.

## Program Features

- Program based, rather than position based. Services 100% of the students.
- Calendaring process is utilized as a means to determine counselor use of time.
- Wisconsin Model Academic Standards for School Counseling make this similar to the other educational academic programs.
- Strong emphasis on student/parent/counselor conferencing.
- The Comprehensive Student Services content is delivered in a developmental manner to all students.
- The program is delivered using the motto, By ALL...For ALL.
- The school counselor, staff, administration, parents, and community contribute to the delivery of the program.

The four program components include:

- 1)Curriculum: content delivered to all students
- 2)Individual Student Planning: assist students in planning and managing their educational career development
- 3)Responsive Services: address the immediate personal concerns of students
- 4)System Support: includes program, staff, and school support activities

## Program Advantages

- Focuses on academic success for all students and gives students a purpose for learning—it answers the question, “Why do I have to learn this stuff?”
- Prepares all students to succeed in the curricular domains of career, academic, and personal/social through direct instruction.
- Provides increased opportunity for collaborating among counselors and business, industry, and the community as a whole.
- Develops a system for students' long-range planning and learning.
- Enables parents to access school and community resources.
- Provides a means of accountability and evaluation of counseling programs.
