

STUDENT DISCIPLINE

Disciplinary measures shall be maintained in the District. All school personnel shall insure that proper student conduct is maintained in classrooms, in the halls, on school premises, on school buses, on scheduled field trips and during school-sponsored activities.

Disciplinary measures shall take into account the age and maturity of the student and the seriousness of the infraction. Effort should be made to administer discipline in a manner that holds the student responsible for following school rules and yet maintains the dignity of the student.

When a staff member is unable to adequately handle a behavior situation alone, he/she should contact the building principal immediately.

The building principal shall develop appropriate rules to promote desirable student behavior and discipline.

The District shall not discriminate in standards or rules of behavior or disciplinary measures, including suspensions and expulsions, on the basis of sex, race, religion, color, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional or learning disability or handicap. Discrimination complaints shall be processed in accordance with established procedures.
