

BUDGET IMPLEMENTATION

After the budget is approved, it shall become the base document for all receipts and expenditures of the school district. The Superintendent of Schools and the Director responsible for Business Services shall be held accountable for ensuring that all receipts and expenditures are recorded and accounted for according to the accounting functions in the approved document. They also shall assure that the budgeted funds will be appropriated to those programs, buildings, departments and personnel which the budget process established as the recipients of those funds.

Approved: February 10, 1998
